- Readily soluble in water for ease of administration

## PACKAGING

LIST NO.	UNIT PACKAGE	CASE SIZE
1BIM003	25g	100

See reverse side for full indications, administration and dosage.

## BIMADINE POWDER

### Presentation

White polythene/aluminium sachets containing a white or almost white powder which is intended, following suspension in drinking water, for oral administration to animals. Each sachet contains Sulfadimadine 99.01%w/w.

### Uses

For the treatment and control of diseases in monogastric calves caused by or associated with organisms sensitive to sulfadimadine.

### Dosage and Administration

For oral administration. Recommended dosage 2g per 10kg bodyweight (equivalent to 1 sachet per 125 kg bodyweight), followed by daily doses of 1g per 10kg bodyweight (equivalent to 1 sachet per 250 kg bodyweight) for a further 2 days only.

### Contra-indications, Warnings, etc.

For animal treatment only.  
Not to be used in animals known to be hypersensitive to the active ingredient.  
The procaine of procaine penicillin and local anaesthetics of the procaine group are antagonistic and should not be used during treatment. There is interaction and antagonism between sulfonamides and vitamin B complex.  
As with all sulphonamides, prolonged treatment may give rise to Vitamin K deficiency, agranulocytosis and haemolytic anaemia and should therefore be avoided.

### Withdrawal Periods

Animals must not be slaughtered for human consumption during treatment. Animals may be slaughtered for human consumption only after 28 days from the last treatment.

### Pharmaceutical Precautions

Keep out of reach and sight of children. Do not store above 25°C

### Legal Category POM

### Package Quantities

100 x 25g packs.
