

OSMODEX

Iodine

BENEFITS

- Department of agriculture approved product
- Concentrated low volume usage rate
- Can be sprayed, poured or used as a fog mist
- Concentrated iodine based disinfectant in handy 5L container

PACKAGING

LIST NO.	UNIT PACKAGE	CASE SIZE
1OSM004	5L	4
1OSM005	25L	1

See reverse side for full indications, administration and dosage.

OSMODEX

Presentation

A liquid foaming acid iodophor-detergent disinfectant with a powerful bactericidal action.

It contains: Available iodine, Phosphoric Acid, Sulphuric Acid and I.M.S.

Uses

For the cleaning and disinfection of animal environment, e.g. housing pens, transport trucks, handling equipment, utensils and contact materials. After removal of heavy soiling, clean and disinfect by thoroughly wetting and soaking all accessible surfaces. Inaccessible spaces may be sterilised by fogging.

Directions for Use

Osmodex is approved by the Minister of Agriculture, Food and Rural Development for use against specific organisms at the following rates:

Foot and Mouth Disease

Dilute 1 in 525 with water

Fowl Pest (Newcastle Disease)

Dilute 1 in 150 with water.

Tuberculosis

Dilute 1 in 15 with water.

Swine Vesicular Disease:

Dilute 1 in 400 with water

Anthrax, Brucellosis, Contagious Bovine Pleuro-Pneumonia, Glanders and organisms such as E. coli, Salmonella etc. and other Scheduled diseases.

Dilute 1 in 110 with water

General Sanitising:

When using in livestock housing remove all portable equipment, litter and manure. Apply at a rate of 50ml Osmodex to 16 litres of water, ensuring that all surfaces are covered. Allow the area to dry if possible before replacing the equipment etc. and restocking.

Wheels and Footbath

To prevent the spread of the disease, dilute 1 in 110 with water and renew daily if heavily soiled.

Aerial Disinfection:

When diluted 1 in 500 with water, Osmodex may be used through a mist generator in the presence of livestock.

Drinking Water System

Used as a sanitising aid, dilute 1 part of Osmodex with 1,600 parts of water.

Precautions For Use:

Keep out of reach of children.

Keep container tightly closed in a well ventilated place.

Causes burns.

When using, wear suitable protective clothing and eye/face protection.

In case of contact with eyes, rinse immediately with plenty of water and seek immediate medical advice. If swallowed, wash out mouth, then drink plenty of milk or water and seek immediate medical attention, showing the container. Do not mix with other chemicals, especially chlorine releasing bleaches as toxic gas will be evolved.

Keep away from aluminium and its alloys.

This material and its container must be disposed of in a safe manner.

Package Quantities

5 litre and 25 litre
